

Scholarship Committee Report, Fall 2022

Submitted by: Angie Wright-Nash, FL – Kappa Chapter, Scholarship Committee Chair

The Florida Organization Scholarship committee is dedicated to supporting the needs of individual chapters through the dissemination of information regarding educational assistance for individual DKG members. We are still working our plan to edit and update all pertinent forms, documentation, and applications before the end of 2022. We request that chapters provide us with the names and e-mail addresses of their respective Scholarship committee chairs, so that the district committee representatives can create distribution lists for information, as well as have a contact for individual chapters.

As a committee, we continue to look for ways to support and “advance the professional interest and position of women in education,” using scholarships – and to look at how we define “scholarship” within our great organization in order to lessen the financial demands of educators who are expected to fund their own certification expansion requirements. As our profession continues to change, so must we, leading the charge to adopt new ideas for supporting our members, existing and new.

The Florida Organization Scholarship committee would like to recognize and congratulate Anna Nesi, recipient of a \$6,000 scholarship from the DKG international Scholarship committee.

Thank you!
